

# CURRICULUM VITAE

Name : Noriaki SUZUKI

Position : Professor of Department of Mathematics,  
Faculty of Science and Technology, Meijo-University,  
Nagoya, Aichi, 468-8502, APAN

Place of birth: Okazakli, Aichi Prefecture, JAPAN

Date of birth: October, 29, 1954.

Home Address: 77 Gochu, Nakazono-cho, Okazaki, 444-0942, Japan

## Education:

From	To	
April, 1973	March, 1977	Faculty of Science, Nagoya University
April, 1977	March, 1979	MC, Nagoya University
April, 1979	March, 1982	DC, Nagoya University
Feburary, 1986		Doctor of Science, Hiroshima University

## Employment History:

From	To	
April, 1982	September, 1990	Assistant of Hiroshima University
October, 1990	March, 2008	Associate Professor of Nagoya University
April, 2008		Professor of Meijo University

## Papers:

- [1] Nishio, Masaharu; Suzuki, Noriaki; Yamada, Masahiro, Carleson inequalities on parabolic Bergman spaces. *Tohoku Math. J.* (2) 62 (2010), no. 2, 269-286,
- [2] Nishio, Masaharu; Suzuki, Noriaki; Yamada, Masahiro, Weighted Berezin transformations with application to Toeplitz operators of Schatten class on parabolic Bergman spaces. *Kodai Math. J.* 32 (2009), no. 3, 501-520.
- [3] Suzuki, Noriaki, Potential analysis of parabolic Bergman spaces. (Japanese) *Res. Rep. Fac. Sci. Technol. Meijo Univ.* No. 49 (2009), 5-12.
- [4] Nishio, Masaharu; Suzuki, Noriaki; Yamada, Masahiro, Compact Toeplitz operators on parabolic Bergman spaces. *Hiroshima Math. J.* 38 (2008), no. 2, 177-192.
- [5] Nishio, Masaharu; Suzuki, Noriaki; Yamada, Masahiro, Interpolating sequences of parabolic Bergman spaces. *Potential Anal.* 28 (2008), no. 4, 357-378.
- [6] Nishio, Masaharu; Suzuki, Noriaki; Yamada, Masahiro, Parabolic dilations with application to Toeplitz operators on parabolic Bergman spaces. *Complex analysis and its applications*, 307-312, OCAMI Stud., 2, Osaka Munic. Univ. Press, Osaka, 2007

- [7] Nishio, Masaharu; Suzuki, Noriaki; Yamada, Masahiro, Toeplitz operators and Carleson measures on parabolic Bergman spaces. *Hokkaido Math. J.* 36 (2007), no. 3, 563-583.
- [8] Nishio, Masaharu; Shimomura, Katsunori; Suzuki, Noriaki,  $L^p$ -boundedness of Bergman projections for  $\alpha$ -parabolic operators. *Potential theory in Matsue*, 305-318, *Adv. Stud. Pure Math.*, 44, Math. Soc. Japan, Tokyo, 2006.
- [9] Nakamura, Gou; Suzuki, Noriaki, Heat polynomial solutions to the boundary value problems. *Int. J. Differ. Equ. Appl.* 10 (2005), no. 1, 91-100,
- [10] Nishio, Masaharu; Shimomura, Katsunori; Suzuki, Noriaki,  $\alpha$ -parabolic Bergman spaces. *Osaka J. Math.* 42 (2005), no. 1, 133-162.
- [11] Suzuki, N.; Watson, N. A., Mean value densities for temperatures. *Colloq. Math.* 98 (2003), no. 1, 87-96,
- [12] Suzuki, Noriaki, Mean value property for temperatures on an annulus domain. *Potential theory and related topics (Japanese) (Kyoto, 2002)*. Surikaisekikenkyusho Kokyuroku No. 1293 (2002), 168-174
- [13] Suzuki, Noriaki; Watson, Neil A., A characterization of heat balls by a mean value property for temperatures. *Proc. Amer. Math. Soc.* 129 (2001), no. 9, 2709-2713 (electronic).
- [14] Nishio, Masaharu; Suzuki, Noriaki, A characterization of strip domains by a mean value property for the parabolic operator of order  $\alpha$ . *New Zealand J. Math.* 29 (2000), no. 1, 47-54.
- [15] Nishio, Masaharu; Shimomura, Katsunori; Suzuki, Noriaki, Note on poly-supertemperatures on a strip domain. *Osaka J. Math.* 36 (1999), no. 3, 539-556.
- [16] Nishio, Masaharu; Shimomura, Katsunori; Suzuki, Noriaki, A mean value property of poly-temperatures on a strip domain. *J. London Math. Soc.* (2) 58 (1998), no. 2, 381-393.
- [17] Suzuki, Noriaki, Generalized normal differentials and a uniqueness theorem for harmonic functions. *(Japanese) Potential theory and related fields (Japanese) (Kyoto, 1997)*. Surikaisekikenkyusho Kokyuroku No. 1016 (1997), 22-29,
- [18] Nishio, Masaharu; Shimomura, Katsunori; Suzuki, Noriaki, A general form of a mean value property for poly-temperatures on a strip domain. *Proceedings of the Seventh International Colloquium on Differential Equations (Plovdiv, 1996)*, 269-276, VSP, Utrecht, 1997.
